Skydro Ceiling

DESIGN BY:

Ross Lovegrove
2008

MATERIALS:

Aluminium, steel, ABS

DESCRIPTION:

Ceiling lamp, a further development of the Hydro series. A series of pebbles forms a bright sky reflecting the light that bounces on its biomorphic surfaces.

Available in two versions: the first, in which the indirect light comes from a lighting unit integrated into the lamp, the second, in which the indirect light comes from a wall projector that is separate from the lamp. Skydro is a sectional unit that enables numerous elements to be added. To assemble the multiple units it needs - in addition to the basic units (with or without light source) - an assembly kit (template) and cable kits for the electrical connection.
