

## PRODUCT DATA SHEET

### Talak Professional Table - Clamp

**DESIGN BY:**

Neil Poulton

**MATERIALS:**

technopolymer, steel, aluminum

**DESCRIPTION:**

Artemide introduces new versions of its bestsellers to keep up with the pace of LED technology development in terms of performance, amount, and quality of light. The new Talak Professional appliance has the same stem structure, which allows movement around the axis and vertically along its height; the protruding head's body is modified to adjust to technological evolution, as well as to meet functional requirements for better use and relation with the working space. The new head is in fact less intrusive, being as much as 15 cm shorter than in the original version. The smaller size ensures a reduced intrusion into the working space but, at the same time, its technological development makes it more prominent in terms of lighting: the emitted flow is almost triple compared to the classical version, with a minimum increase of power.

**PRODUCT CODE**

0678510A

**Light emission**

IP20

**TECHNICAL DATA SHEET**
**FEATURES**

Product name:	Talak Professional Table - Clamp
Article Code:	0678510A
Colour:	White
Material:	technopolymer, steel, aluminum
Series:	Design, Novelties
Environment:	Indoor

**OPTICS**

Emission:	Direct
-----------	--------

**DIMENSIONS**

Length:	cm 70
Height:	cm 70

**LAMPS INCLUDED**

Category:	LED COB
Number:	1
Watt:	12 W
Luminous Flux (lm):	960lm
Color temperature (K):	3000 K
Class:	A

**LUMINAIR**

Watt:	13W
Luminous Flux (lm):	1100 lm
CCT:	3000K
CRI:	90
Dimmer
