

PRODUCT DATA SHEET

Talak Professional Table - Base

DESIGN BY:

Neil Poulton

MATERIALS:

technopolymer, steel, aluminum

DESCRIPTION:

Artemide introduces new versions of its bestsellers to keep up with the pace of LED technology development in terms of performance, amount, and quality of light. The new Talak Professional appliance has the same stem structure, which allows movement around the axis and vertically along its height; the protruding head's body is modified to adjust to technological evolution, as well as to meet functional requirements for better use and relation with the working space. The new head is in fact less intrusive, being as much as 15 cm shorter than in the original version. The smaller size ensures a reduced intrusion into the working space but, at the same time, its technological development makes it more prominent in terms of lighting: the emitted flow is almost triple compared to the classical version, with a minimum increase of power.

TECHNICAL DATA SHEET
FEATURES

Product name:	Talak Professional Table - Base
Article Code:	0687510A
Colour:	White
Material:	technopolymer, steel, aluminum
Series:	Design, Novelties
Environment:	Indoor

OPTICS

Emission:	Direct
-----------	--------

DIMENSIONS

Length:	cm 70
Height:	cm 70
Base Diameter:	cm 16.5

LAMPS INCLUDED

Category:	LED COB
Number:	1
Watt:	12 W
Luminous Flux (lm):	960lm
Color temperature (K):	3000 K
Class:	A

LUMINAIR

Watt:	13W
Luminous Flux (lm):	1100 lm
CCT:	3000K
CRI:	90
Dimmer
