Artemide

PRODUCT DATA SHEET
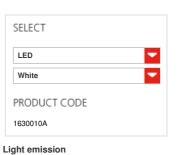

Flashit

DESIGN BY:

Massimo Tassone
2014

MATERIALS:

Aluminium, methacrylate

DESCRIPTION:

"Luminous lines drawn in space, creating new forms and patterns in the room. Its sequential and/or modular use allows to achieve a variety of aesthetic options related to wall/ceiling and wall/floor installations. A straight line is one of the multiple options of this series, which includes several segments of different sizes and not necessarily running in the same direction. The strip-led is installed inside a tube, preferably made of a fine material such as wood or chromed metal, copper, bronze, or a lacquered white/'ad-hoc' color. The material would add a subtle decorating function to this mainly architectural light fitting." Massimo Tassone

TECHNICAL DATA SHEET

FEATURES

Product name:	Flashit
Article Code:	1630010A
Colour:	White
Material:	Aluminium, methacrylate
Series:	Design

DIMENSIONS

Length:	cm 150
Diameter:	cm 2.8

LAMPS INCLUDED

Category:	LED
Number:	1
Watt:	26W
Luminous Flux (lm):	3117lm
Color temperature (K):	3000K
Class:	A

LUMINAIR

Watt:	31W
Luminous Flux (lm):	2212lm
CCT:	3000K
Efficiency:	71%
Efficacy:	71lm/W
Dimmer	
Dimmable	

DIMENSIONS

Ø 28

1500
